

SOBHA

LAVENDER

Living, Beautifully Composed.

Not built for everyone,

Composed for *you*.

Like a masterpiece, the most extraordinary places are not defined by any single element, but by the beauty of everything coming together.

SOBHA
LAVENDER
Living. Beautifully Composed.

We envision a world where landscape is not simply something you look out upon. *It becomes part of how you live.*

Where open spaces give life room to unfold. Where private residences find their place within nature. Where every turn reveals a new perspective, and every detail contributes to a greater whole.

Here, luxury isn't about excess.

It's about intention.

Chapter 01 – The Arrival

The First Impression

The grand entrance introduces the idea of a world designed with intention. Sculptural architecture, the signature Contour emblem, water and natural materials create a memorable sense of arrival.

The balance between grandeur and intimacy. Between moments of togetherness and the privilege of solitude. Between everything you desire and everything you need to feel at home.

Chapter 02 - The Landscape

The Art of *Flow*

The 10-acre concept becomes a continuous landscape composition. Sweeping contours, interconnected gardens and pathways establish a natural rhythm.

Chapter 03 - The Water

The Beauty of *Stillness*

Water becomes the emotional heart of the estate. Its reflections introduce depth, elegance and moments of tranquillity between the different spaces.

Chapter 04 - The Residences

The Art of *Belonging*

Villas and residences offer different expressions of considered luxury. Private spaces connect with expansive outdoor environments, while architecture remains elegant and restrained.

Not simply designed to be admired

Composed to be lived

Chapter 05 - The Living Spaces

The Art of *Home*

Thoughtfully designed residences that bring together space, light and contemporary comfort. A spacious 4 BHK apartment envisioned for refined family living, with expansive social areas, private bedroom suites and a seamless indoor-outdoor connection.
